

GRTgaz Deutschland GmbH

Price List

Version 29.11.2017

**Price List of GRTgaz Deutschland GmbH
Valid for transports starting January 1, 2018
in accordance with Section 25 General Terms and Conditions**

1. Capacity fees for firm capacity

The following table shows the daily fees in €/kWh/h/d for all entry and exit points:

Regulated fees*	Daily fees	Annual fees
	in €/kWh/h/d	in €/kWh/h/a (indicative)
Entry		
Freely allocable capacities (FZK)	0,007907	2,885967
Conditionally firm freely allocable capacities (bFZK)	0,007828	2,857108
Dynamically allocable capacities (DZK)	0,007511	2,741669
Exit		
Freely allocable capacities (FZK)	0,007907	2,885967
Dynamically allocable capacities (DZK)	0,007511	2,741669
Measuring fee**	0,000085	0,031025
Biogas levy***	0,00187515	0,68443
Quality conversion charge****	0,00070874	0,2587

* Including capacity platform fee.

** Measuring fees are charged at all exit points in addition to the regulated capacity fee.

*** The nationwide biogas levy according to § 7 KoV IX (main part) is charged in addition to the regulated capacity fee at all exit points of GRTgaz Deutschland. According to Section 7 7a) KoV IX market area/cross border interconnection points as well as exit points to storage are exempted.

**** The nationwide market area conversion levy according to § 25 Terms and conditions for the entry and exit contract of § 10 KoV is calculated for each market area and applicable to all exit points in addition to the network fees.

2. Capacity fees for interruptible capacity

According to the provisions of the BEATE decision (Az. BK9-14/608), the network fee for interruptible capacity at a given network point is obtained by applying a discount factor on the firm capacity fee. The following table shows the discount factors applicable on the FZK fee for each network point as well as the resulting interruptible capacity fee.

The discount does not apply on measuring fee.

Regulated fees*		Discount to FZK price	Daily fees	Annual fees
			in €/(kWh/h)/d	in €/(kWh/h)/a (indicative)
Entry				
Waidhaus	Interruptible capacity	10%	0,007116	2,597371
Oberkappel	Interruptible capacity	10%	0,007116	2,597371
Gernsheim	Interruptible capacity	10%	0,007116	2,597371
Medelsheim	Reverse flow capacity	10%	0,007116	2,597371
Exit				
Waidhaus	Reverse flow capacity	10%	0,007116	2,597371
Oberkappel	Interruptible capacity	11%	0,007037	2,568511
Gernsheim	Interruptible capacity	10%	0,007116	2,597371
Medelsheim	Interruptible capacity	10%	0,007116	2,597371
Measuring fee**			0,000085	0,031025
Biogas levy***			0,00187515	0,68443
Quality conversion charge****			0,00070874	0,2587

* Including Capacity platform fee.

** Measuring fees are charged at all exit points in addition to the regulated capacity fee.

*** The nationwide biogas levy according to § 7 KoV IX (main part) is charged in addition to the regulated capacity fee at all exit points of GRTgaz Deutschland. According to Section 7 7a) KoV IX market area/cross border interconnection points as well as exit points to storage are exempted.

**** The nationwide market area conversion levy according to § 25 Terms and conditions for the entry and exit contract of § 10 KoV is calculated for each market area and applicable to all exit points in addition to the network fees.

Price List

Version 29.11.2017

3. Calculation process and application of multipliers

Guidelines for the conversion of yearly prices into prices for periods of less than a year:

The tariff for one day is - without taking into account the multipliers - 1/365 of the yearly tariff valid for the respective entry-exit point according to the fees listed under items 1. and 2.

Applicable multipliers for short-term products according to BEATE decision:

Product	Multiplier
Within-Day product	1.4
Daily product (runtime between 1 and 27 days)	1.4
Monthly product (runtime between 28 and 89 days)	1.25
Quarterly product (runtime between 90 and 364 days)	1.1

Multipliers are not applied to internal orders, accounting and measuring fees, the biogas levy and the quality conversion charge.

4. Dues

The tariffs stated above are net of charges. Dues and taxes, e.g. value added tax, shall be paid by the network user in addition.
