

GRTgaz Deutschland GmbH

Price List for market area and cross-border interconnection points

valid as from 1 January 2021

Prices of GRTgaz Deutschland GmbH for market area interconnection points and cross-border interconnection points

These prices are part of the General Terms & Conditions for Entry/Exit Contracts of GRTgaz Deutschland GmbH. They are determined by the REGENT (BK9-18/619) and AMELIE (BK9-18/607) decisions establishing a uniform postage stamp for the market area. In accordance with art. 32 of Regulation (EU) 2017/460 (NC TAR), GRTgaz Deutschland publishes the price list for its market area interconnection points, cross-border interconnection points and storage points.

The price list is valid for transports as from 1 January 2021 and replaces all previously published price lists.

GRTgaz Deutschland has brought complaints against the abovementioned decisions before the Higher Regional Court (OLG) of Düsseldorf. In the event that they are overruled or altered by the regulatory authority, tariffs might change, possibly retroactively. For this occasion, we reserve the right to adjust the tariffs accordingly.

The list comprises the prices of GRTgaz Deutschland for:

- the entry and exit points IP Waidhaus, Medelsheim, Oberkappel and Gernsheim
- the virtual interconnection point VIP France Germany.

1. Prices for firm capacity

The prices in €/(kWh/h)/a for all entry and exit points are listed below:

Regulated fees*	Daily fees	Annual fees
	in €/(kWh/h)/d (indicative)	in €/(kWh/h)/a
Entry		
Freely allocable capacities (FZK)	0.010329	3.77
Conditionally firm freely allocable capacities (bFZK)	0.010225	3.73
Dynamically allocable capacities (DZK)	0.009296	3.39
Exit		
Freely allocable capacities (FZK)	0.010329	3.77
Dynamically allocable capacities (DZK)	0.009296	3.39

Price List for market area and cross-border interconnection points

valid as from 1 January 2021

2. Prices for Interruptible Capacity

Pursuant to art. 14, 15 NC TAR, the Bundesnetzagentur has, in its decision Az. BK9-19/612 (“[MARGIT 2021](#)”) determined the discounts for interruptible capacities at interconnection points. The methodology for the calculation of these discounts is described in chapter 5 of the MARGIT decision. For entry and exit points of GRTgaz Deutschland, it results in the following discounts:

Regulated fees*	Discount for FZK	Daily Fees	Annual Fees
		<i>in €/(kWh/h)/d (indicative)</i>	<i>in €/(kWh/h)/a</i>
VIP France Germany Entry			
Annually	10%	0.009296	3.39
Quarterly	10%	0.009296	3.39
Monthly	10%	0.009296	3.39
Daily	10%	0.009296	3.39
Within-day	10%	0.009296	3.39
VIP France Germany Exit			
Annually	10%	0.009296	3.39
Quarterly	10%	0.009296	3.39
Monthly	10%	0.009296	3.39
Daily	11%	0.009193	3.36
Within-day	11%	0.009193	3.36

GRTgaz Deutschland GmbH

Price List for market area and cross-border interconnection points

valid as from 1 January 2021

Regulated fees*	Discount for FZK	Daily Fees	Annual Fees
		in €/(kWh/h)/d (indicative)	in €/(kWh/h)/a
Gernsheim Entry			
Annually	10%	0.009296	3.39
Quarterly	10%	0.009296	3.39
Monthly	11%	0.009193	3.36
Daily	11%	0.009193	3.36
Within-day	11%	0.009193	3.36
Gernsheim Exit			
Annually	10%	0.009296	3.39
Quarterly	10%	0.009296	3.39
Monthly	10%	0.009296	3.39
Daily	10%	0.009296	3.39
Within-day	10%	0.009296	3.39

3. Calculation of fees for non-yearly capacity products and application of multipliers

The BNetzA's MARGIT decision provides that, in converting yearly standard capacity products into non-yearly standard capacity products ('non-yearly products'), a multiplier is to be applied at all interconnection points. The fee for non-yearly products is calculated by dividing the relevant annual fee by 365 and then multiplying it with the duration of the respective product (in days) and the relevant multiplier as to be identified as follows:

Product	multiplier
Within-day	2
Daily (duration 1-27 days)	1.4
Monthly (duration 28-89 days)	1.25
Quarterly (duration 90-365 days)	1.1

4. Dues

The tariffs stated above are net of charges. Dues and taxes, e.g. value added tax, shall be paid by the network user in addition.
